Council

### Aim One

“To place patients and their expectations of care at the centre of all GCC work.”

### Aim Two

“To promote chiropractic excellence, professionalism and value within the health and care system.”

### Aim Three

“To regulate effectively, efficiently, innovatively and inclusively.”

### Aim Four

“To enhance the nature and form of regulation for the profession for the future.”

# GCC Strategy 2022-2024

YOUR VIEWS COUNT

## Patients & Public:

“To place patients and their expectations of care at the centre of all GCC work.”

## Objectives:

- 1A** To gain a greater understanding of patients' needs and expectations so these can be reflected in the work of the GCC.
- 1B** To promote and enforce standards that take full account of patients' needs and legitimate expectations.
- 1C** To enhance the information the GCC provides to help patients make better informed judgements about their chiropractic care.

**Chiropractors:** “To promote chiropractic excellence, professionalism and value within the health and care system.”

## Objectives:

- 2A** To identify, collect and analyse data and insights from regulatory and statutory activity.
- 2B** To share learning through the gathering and dissemination of GCC internal data and public, patient and registrant research.
- 2C** To work with education providers and stakeholders to develop and promote professionalism in registrants from the start to end of their careers.

The GCC:

“To regulate effectively, efficiently, innovatively and inclusively.”

## Objectives:

- 3A** To take appropriate and measured action on complaints, the misuse of title, or when registration requirements, including annual CPD fulfilment, are not met.
- 3B** To set and promote educational, professional and registration requirements that are appropriate and fit for purpose.
- 3C** To be a sustainable and effective organisation committed to equality, diversity and fairness.

## The Profession:

“To enhance the nature and form of regulation for the profession for the future.”

## Objectives:

- 4A** To ‘shape the future’ of regulation of the profession by influencing the conclusions of the DHSC consultation and review of health and care regulation.
- 4B** To foster knowledge sharing and expertise, drive efficiencies and seek opportunities to delegate and/or attain economies of scale.
- 4C** To take forward the development of rules to be applied upon agreed legislative change.

# We want to hear from you

[enquiries@gcc-uk.org](mailto:enquiries@gcc-uk.org)

## Of interest to the GCC (in no particular order):

- Independent regulator or merged into a multi-discipline regulator?
- What would you like to see or hear from the GCC?
- Would you like to see an expansion of courses to grow the profession?
- Our relationship with the NHS (closer or as is?)
- Do you believe chiropractic to be a divided profession?
- Your overall views of the GCC (good and bad)
